UniMentor — Unified AI-Powered Student Platform

ABSTARCT

This project presents UniMentor, an AI-powered student assistance platform designed for career guidance, exam preparation, skill development, and academic progress tracking. The system integrates personalized mentorship, adaptive learning, AI-powered quiz generation, and recommendation models into a single interactive platform. Using AI services such as Groq, Gemini, and Ollama along with modern web technologies and cloud databases, the framework delivers scalable and personalized learning experiences for students.
